SUMMARY

Enthusiastic and detail-oriented Front-End Developer with a B.Tech in Electronics & Communication Engineering. Experienced in building responsive, user-centric web applications using React, HTML, CSS, and JavaScript. Skilled in cross-functional collaboration, UI/UX design, and performance optimization. Strong foundation in full-stack development with hands-on experience from internships and freelance projects. Passionate about creating innovative, accessible, and visually engaging digital experiences.

EXPERIENCE

Front-End Development Intern

Feb '25 — Jun '25

Sunbuzz Media

- Developed and maintained responsive user interfaces using React and Bootstrap for marketing websites.
- Collaborated with the design team to translate Figma mockups into clean, interactive web components.
- Ensured website responsiveness and cross-browser compatibility across all devices.
- Optimized frontend code for faster load times and better SEO performance.

Engineering Intern – Aviation Component Maintenance

Aug '23 — Sep '23

AI Engineering Services Ltd. (AIESL)

- Conducted inspections and supported troubleshooting of aviation mechanical and electrical components.
- Worked alongside senior engineers to ensure adherence to operational and safety standards.
- Documented reports on diagnostics and component replacement procedures.

Freelance Front-End Developer

- Delivered custom websites for clients using WordPress, Shopify, and MERN stack.
- Integrated SEO best practices and performance enhancements to ensure fast, responsive sites.
- Focused on UI/UX best practices to deliver user-friendly, accessible digital solutions.
- Sample work: [kmanindra.com](#), [oneangelcapital.com](#), [drmerchants.com](#)
