SUMMARY

Results-driven **Frontend and AI Developer** with a B.Tech in ECE and a proven track record of shipping production-ready applications. Bridging the gap between high-performance web development (React, Next.js, MERN) and modern AI automation (RAG, n8n, OpenAI). Successfully delivered **18+ projects across 7 verticals**, including a real estate platform driving **2,000+ monthly visits** with engagement metrics significantly outperforming industry averages. Adept at translating complex business needs into scalable, user-centric digital solutions.

SKILLS

Frontend	React.js, Next.js, JavaScript (ES6+), TypeScript, Tailwind CSS, HTML5/CSS3, Bootstrap, Redux
Backend & Databases	Node.js, Express.js, MongoDB, Mongoose, REST APIs, PHP
AI & Automation	OpenAI APIs, Gemini, n8n, Pinecone, RAG Systems, Vector Databases, Twilio, MCP
CMS & E-Commerce	WordPress, WooCommerce, Custom PHP Plugins, Shopify
Tools & Methodologies	Git/GitHub, Figma, VS Code, Vercel, Webpack, Agile/Scrum, SEO, Responsive Design

EXPERIENCE

- Front-End Development Intern** | [Urban Investors](#) Feb 2026 – Present
- Designed and developed [urbaninvestors.in](#), a fully responsive real estate platform currently generating **2,000+ verified monthly visitors**.
 - Achieved a **31% bounce rate** (well below the 40–60% industry average), driving engagement to 2.54 pages/visit and 42s average session duration through conversion-driven UI/UX.
 - Contributed to an internal AI-powered platform for sales tracking, integrating React, REST APIs, and OpenAI for automated salesperson scoring and report analysis.
 - Collaborated with cross-functional teams to align frontend architecture with business and operational requirements.
- Independent Developer & AI Specialist** | [Self-Employed](#) Feb 2023 – Present
- Shipped **18+ production projects** across real estate, healthcare, e-commerce, and consulting verticals.
 - Engineered **Grah Kalyan**, a multi-role religious marketplace platform featuring complex role-based access, admin/manager dashboards, and custom PHP/WooCommerce plugins for order routing.
 - Architected production **AI voice agents** (Twilio + OpenAI + RAG) and conversational chatbots that pick up inbound calls, qualify high-value leads, and route data via vector databases.
 - Designed end-to-end **n8n automation workflows**, including lead qualification (GPT-4o-mini to HighLevel CRM), cold email personalisation, and SEO rank tracking.
- Front-End Development Intern** | [Sunbuzz Media](#) Feb 2025 – Jun 2025
- Developed and maintained responsive user interfaces using React and Bootstrap across 5+ client marketing websites, ensuring brand consistency.
 - Translated Figma mockups into clean, interactive web components, achieving 90+ Lighthouse performance scores through optimized cross-browser compatibility.
 - Streamlined frontend code architecture, resulting in faster load times and enhanced technical SEO performance for client deliverables.
- Engineering Intern (Aviation Component Maintenance)** | [AI Engineering Services Ltd. \(AIESL\)](#) Aug 2023 – Sep 2023
- Conducted inspections and supported troubleshooting of aviation mechanical and electrical components alongside senior engineers, strictly adhering to safety standards.

PROJECTS & SIMULATIONS

BiteReview (MERN Stack Platform): Architected a Zomato-style restaurant review web app using MongoDB, Express, React, and Node.js. Implemented user authentication, real-time ratings, dynamic search/filtering, and image uploads.

J.P. Morgan Software Engineering Virtual Experience: Engineered solutions for repository bugs and utilised JPMorgan's open-source Perspective library to construct a live, visually appealing data-feed graph for traders.

EDUCATION

B.Tech — Electronics & Communication Engineering · Guru Gobind Singh Indraprastha University · 75.9% (7.79 CGPA)	Aug 2021 – Jun 2025
Class XII · Ahlcon Public School · 86%	Apr 2020 – May 2021
Class X · Ahlcon Public School · 73.2%	Apr 2018 – May 2019

CERTIFICATIONS & ADDITIONAL

Certifications: The Complete 2024 Web Development Bootcamp (Udemy), Software Engineering Job Simulation (JPMorgan Chase & Co.).
Strengths: Problem-Solving & Creativity, Time Management, Cross-Functional Collaboration.
